Role: Supervising Counselor & Researcher; Yul Choi, Jimin Sung, and Seojin Lee served as research assistants.

RESEARCH EXPERIENCE

Kwangwoon University | **Master's Thesis Researcher** 2022-2024

- Designed and implemented a seven-session group coaching intervention, including participant recruitment, pilot testing, program refinement, and two-week follow-up assessment.
- Applied a three-group quasi-experimental design (experimental, comparison, control; n=24) and conducted reliability analyses, *t* tests, mixed ANOVA, and repeated-measures analyses using SPSS; grit showed a significant group-by-time improvement, while self-directed learning effects were not significant.

Kwangwoon University | **Undergraduate Researcher** 2019

- Co-developed the Happiness Habit Scale, beginning with a 26-item pool and analyzing data from 163 young adults; conducted item analysis, internal-consistency analysis, and exploratory factor analysis using SPSS 20.0, resulting in a 15-item, three-factor measure (Agency, Positive Perception of Adversity, and Interpersonal Relationships).
- Evaluated the scale's reliability and criterion-related validity; the initial 26-item measure demonstrated Cronbach's $\alpha = .808$ and a significant positive association with the Satisfaction With Life Scale ($r = .399, p < .001$).

PRESENTATIONS AND ACADEMIC EXCHANGE

Korean Coaching Psychology Association Winter Conference | **Oral Presenter** Feb 2024

- Presented master's thesis research on the effectiveness of a grit-enhancement group coaching program for upper-elementary school students.

National Taiwan Normal University (NTNU) Academic Exchange, Taipei | **Presenter** Aug 2024

- Presented master's thesis research in English and participated in a small-group academic exchange with doctoral students, faculty, and researchers in education and educational psychology.

PROFESSIONAL AND APPLIED EXPERIENCE

Poom Family Project | *Psychological Homecare Planner* · [Portfolio](#) Jan-Dec 2025
Sky-Dream Coaching Psychology Center x Gimpo City 2nd Comprehensive Social Welfare Center | Community Chest of Korea
2025 Lottery Fund Family Function Enhancement Project for Vulnerable Children and Adolescents ("Poom Family")

- Documented participant demographics for 50 elementary- and middle-school students: 34% lower-elementary, 38% upper-elementary, and 28% middle-school; family-background categories included 20 single-parent, 3 grandparent-led, and 27 parent-child households, with 16 dual-background cases (including 6 single-parent and 10 parent-child cases).
- Delivered individualized home-based coaching and family-strengthening activities, including parent education, while coordinating meal assistance, educational materials, multicultural-language education, and referrals to clinical mental-health services as indicated.
- Collaborated with the Gimpo Education Support Office, Gimpo Family Center, Child Protection Agency, Foreign Residents Support Center, a local church, and community childcare centers to coordinate family- and community-level supports.
- Supported program planning and pre/post outcome analysis; among children with completed endpoint assessments as of November 11, 2025, self-direction increased from 30.7 to 34.4, self-efficacy from 74.3 to 80.2, and peer-play relationship self-check scores from 29.8 to 35.1, while 81% showed observed positive change in peer relationships.

Sky-Dream Coaching Psychology Center | *Academic Coach & Youth Counselor* Feb 2022-Present

- Provide individual counseling and academic coaching for adolescents addressing motivation, school adjustment, emotional concerns, goal setting, and personal development.
- Conduct comprehensive psychological assessment batteries, including Wechsler intelligence scales and other standardized measures, with administration, scoring, interpretation, feedback, and written reporting; coordinate caregiver consultation and individualized support planning.

Hwanggok Elementary School | *Program Developer & Lead Instructor* · [Portfolio](#) May 2025
Academic Motivation Enhancement Program

- Designed and delivered a four-module, activity-based program for a third-grade class focused on self-directed learning, academic motivation, identification of learning barriers, and individualized learning strategies.
- Developed the curriculum, experiential activities, and original instructional materials to support academic adjustment and early prevention of disengagement.
- Provided school consultation following a student–teacher conflict, incorporating a game-based anxiety measure, an initial personality assessment, and observations of student–teacher interactions and classroom dynamics.
- Synthesized assessment and observational findings in a psychological report submitted to the school to inform student support and classroom planning.

Green Friends School | *Assistant Instructor & Project Management Assistant* · [Portfolio](#) Nov 2025
Cognitive Coaching Group Program | Sky-Dream Coaching Psychology Center x Gimpo 2nd Comprehensive Social Welfare Center | Funded by Community Chest of Korea

- Assisted in the coordination and delivery of a five-session group program for seven middle-school students with borderline intellectual functioning, emphasizing emotional awareness and expression, communication, self-understanding, and adaptive functioning.
- Co-administered pre/post BGT, KFD, HTP, and Egogram assessments; post-program observations showed more sustained attention, task completion, and response consistency, improving interpretability relative to pretest.

Education Office-Supported Youth Mentoring Project | *Psychological Assessment & Mentoring Coach* Jun 2025
Collaboration with a local Education Office, Gimpo Social Welfare Center, and Sky-Dream Coaching Psychology Center

- Provided brief mentoring and structured emotion-, needs-, and color-card conversations for two adolescents with borderline intellectual functioning, including one out-of-school youth.
- Administered BGT, HTP, KFD, and J-TCI as appropriate and prepared individualized psychological evaluation reports integrating interview, behavioral observation, assessment findings, and support recommendations.

Pet Loss Syndrome Support Project | *Project Manager & Instructor* · [Portfolio](#) 2022-2025

- Managed and facilitated an annual psychoeducational support project for individuals coping with companion-animal loss, including program planning, group activities, volunteer coordination, and grief-support materials.
- Conducted interview-based inquiry with bereaved pet owners and integrated psychological literature on grief, attachment, and coping into program materials and an ISBN-registered eBook; worked under supervision of a Harvard-trained clinical psychology Ph.D.

Kwangwoon University Student Self-Direction Coaching Project | *Psychological Coach* 2022-2023

- Provided individual coaching for first-year university students focused on self-management, academic decision-making, campus adjustment, and persistence.

Kwangwoon Coaching Psychology Institute x "Cool Summer Night" | *Psychological Coach* 2023

- Provided six-session, strengths-based coaching to five adult clients as one of 33 graduate-level coaches (103 clients; PHQ-9–screened intake) in a partnership with a psychology content creator, balancing non-directive questioning with targeted guidance.

Summit Leadership Camp Project | *Program Planner & Instructor* Aug 2024

- Designed and organized a five-day leadership and career-exploration camp for elementary students, coordinated volunteer assistants, and delivered interactive training in teamwork, communication, problem-solving, goal setting, and self-confidence.

TEACHING AND MENTORING EXPERIENCE

Private English & Academic Tutoring | *Tutor* 2016-Present

- Provided individualized English grammar, reading, and writing instruction to more than 20 students, primarily those with low academic motivation or who had given up on learning English, including students with ADHD, borderline intellectual functioning, or identified risk for borderline intellectual functioning; tailored pacing, repetition, task structure, and scaffolding to students' learning needs.

Kyungwon Middle School After-School Program | *Instructor* Sep 2022-Dec 2023

- Used guitar instruction and mentoring to engage students at risk of school avoidance, emphasizing persistence, confidence, and positive school participation.

Gangbuk Youth Center After-School Program | *Guest Instructor* Sep-Dec 2023

- Facilitated psychology-based after-school activities for approximately 20-30 youth participants.

SELECTED PROFESSIONAL DEVELOPMENT
